

# Calvados Christian Drouin

## ❧ The «Calvados Expressions» ❧

### *range* Presentation

Calvados Expressions is a new didactic approach to the aromatic expressions of calvados. Each calvados in the range is taken from an individual barrel chosen for its quality and originality. The aging process and vintage of the calvados, along with its aromatic profile, are precisely described and made available to connoisseurs in a limited number of bottles. Rum, Banyuls, port and sherry casks are all distinguished in this range.

«By creating this range I wanted to give people the opportunity to discover calvados in a different way. The idea was to distinguish the stages of aging and highlight the aromatic profiles we use to create our blends.»

Guillaume Drouin
